FURNITURE

COLLECTION 2020

WWW.ETHNICRAFT.COM

*We create the foundations of your home,
to inspire the stories of your life.*

For the past 25 years, we have been creating timeless furniture and accessories manufactured from quality materials. True to our values, we have maintained our goal to produce good design, distinguished by authenticity, simplicity and quality, as well as creativity and innovation. We rely on our unique expertise to create singular designs ready to embellish your daily life durably. We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

All of our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another.

ICONS YOU MIGHT COME ACROSS
IN OUR PRODUCT CATALOGUE

- O** OILED
The items marked with this icon are finished with a natural oil. Visit page 168 for more information on how to take care of our oiled furniture.
- V** VARNISHED
The items marked with this icon are finished with varnish. Visit page 168 for more information on how to take care of our varnished furniture.
- B** BRUSHED
The items marked with this icon are brushed. This finishing gives our furniture more depth. The rougher surface highlights the grain of the wood.
- C** CONTRACT GRADE
The items marked with this icon are EN and/or BIFMA certified.

100 % SOLID WOOD
The items marked with this icon are 100% made out of solid wood.

FSC® FOREST STEWARDSHIP COUNCIL
The items marked with this icon carry the FSC® 100% label. Visit page 173 for more information on the organization that promotes responsible management of the world's forests.

HOW TO TAKE CARE OF OUR PRODUCTS

About natural materials

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to another, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that ages beautifully.

DEVOTION

We create collections for every room of the house: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

CRAFTSMANSHIP

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflects our design values.

Tips & tricks

- All Ethnicraft products, except for our outdoor collection, are intended for indoor use only.
- Recommended humidity in the room: between 40% and 60%.
- Ideal room temperature: 21°C/70°F during the day, not below 14°C/57°F at night.
- To prevent color differences: Do not place your furniture in direct sunlight, move objects placed on the furniture from time to time and open your extendable table on a regular basis.
- Avoid exposure to extreme conditions: do not place furniture near heating sources or air-conditioned spaces.
- To prevent staining we recommend that any spills are removed immediately.
- When cleaning the surface, always work in the direction of the wood grain.
- Use place mats to prevent hot pots and pans, or cold glasses and bottles, from leaving marks on the furniture.
- Do not drag the furniture along the floor, always lift the furniture when moving.
- Always ensure water and solutions used to clean the floor do not come into contact with the furniture's base, as it might leave permanent marks.
- Last but not least, we recommend to carefully read the care instructions.

We create the foundations of your home, to inspire the stories of your life.

HOW TO TAKE CARE OF OUR PRODUCTS

Oak furniture

OILED

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Although Ethnicraft designs furniture that adapts well to the hydrometrical conditions of its environment, some cracking or movement may occur. Please do not be alarmed, this is a completely normal response to the furniture's environment.

Your oak furniture is finished with a pigmented hardwax oil. This finish gives the furniture its desired natural color and forms a natural protective coating that acts as a repellent against most common substances and liquids but is no foolproof guarantee against stains. In case of a spill, remove it immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals.

REFRESHING THE SURFACE

- To refresh your furniture or to remove superficial stains (crayons or pencil marks, wine or fruit juice stains, etc.) we recommend Osmo Liquid Wax Cleaner (3029). This product cleans, regenerates the elegant character of the wood and slightly reinforces the original protective coating. Osmo Liquid Wax Cleaner is no guarantee against stains.

THOROUGH CARE

- As time goes by, the original hardwax coating may need to be renewed. We recommend using Osmo Hardwax Oil Natural (3041). In case of discoloration, stubborn stains or to remove a superficial scratch, we advise to sand the surface first. Make sure the surface is clean and dry before applying the Hardwax Oil. It is important to spread the product evenly over the surface and remove excess product immediately after application to avoid spots after drying.

VARNISHED

Your oak furniture is varnished. Varnish offers a good protection against stains. Even with this preventive and extensive treatment, spills should be removed immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

Teak furniture

NATURAL

Our teak range comes without any finish or protective treatment. The wood is merely polished, allowing the natural oils to rise to the surface. The high density of teak wood has the advantage that stains stay on the surface and do not penetrate the wood easily. Even with these characteristics, spills should be removed immediately.

PREVENTIVE TREATMENT

- If you want to protect the wood from the start, apply a protective coating. We recommend Occulto Oil (9911). This seals the pores of the timber and creates a natural protection. Stains and marks should still be removed immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

THOROUGH CARE

- To remove stubborn stains or superficial scratches, extra fine sand paper can be used. Make sure you always rub in the direction of the wood grain.

VARNISHED

- Part of the teak furniture items are varnished. You will find varnished items clearly indicated in this catalog. Varnish offers a good protection against stains. Even with this preventive and extensive treatment, spills should be removed immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

VARNISHED AND WAXED

The carved parts of our Ancestors Tabwa collection are varnished but to achieve its signature shine a wax is applied. Even with this preventive and extensive treatment, spills should be removed immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

REFRESHING THE SURFACE

- Dust the surface first. Apply dark brown liquid beeswax using a soft cloth or a furniture brush. Allow the beeswax to dry. Buff with a clean soft cloth and/or furniture brush. Repeat until desired level of shine is reached.

HOW TO TAKE CARE OF OUR PRODUCTS

Walnut furniture

OILED

All Ethnicraft walnut furniture is finished with a tinted natural oil. This finish gives the furniture its desired natural color and forms a natural protective coating that acts as a repellent against most common substances and liquids, but is no foolproof guarantee against stains. In case of a spill, remove it immediately.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Wipe in the direction of the grain. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

REFRESHING THE SURFACE

- To refresh your furniture or to remove superficial stains (crayons or pencil marks, wine or fruit juice stains, etc.) we recommend Osmo Liquid Wax Cleaner (3029). This product cleans, regenerates the elegant character of the wood and slightly reinforces the original protective coating. Osmo Liquid Wax Cleaner is no guarantee against stains.

THOROUGH CARE

- As time goes by, the original hardwax coating may need to be renewed. We recommend using Osmo Hardwax Oil for Walnut (5063). In case of discoloration, stubborn stains or to remove a superficial scratch, we advise to sand the surface first. Make sure the surface is clean and dry before applying the Hardwax Oil. It is important to spread the product evenly over the surface and remove excess product immediately after application to avoid spots after drying.

Upholstered furniture

LEATHER

The upholstery of the leather sofas is not allowed to be washed or dry-cleaned. To keep it in optimal condition we recommend vacuuming regularly with an upholstery attachment (soft).

- Frequently wipe the leather sofa down with a clean, dry cloth and avoid placing the sofa in direct sunlight.
- To avoid discoloration do not place the sofa in direct sunlight.
- Frequently wipe the leather sofa down with a clean, dry cloth.
- Treat spills immediately. Blot up as much of the spill as possible with a clean, dry, white cloth. Don't rub.
- In case of a stain, use a clean, slightly damp white cloth, blotting from the outer edge to the center of the stain.
- Do not use any chemical products not designed for leather. Use a towel to evenly dry the leather and prevent it from moisturizing too much.
- Do not use a hairdryer for this purpose as it is likely to dehydrate the leather.
- Apply leather conditioner when the leather feels dry.

FABRICS AND VELVET

The upholstery of the fabric and velvet sofas is not allowed to be washed. Furthermore, taking off the cushion covers and washing these in the machine (even at low temperature) will not only lighten the color, but will also shrink the fabric. If pilling would occur, don't be alarmed. It's a result of excess fiber coming off the fabric or from external sources. This is not a defect but a characteristic of many upholstered fabrics.

- Avoid placing the sofa in direct sunlight.
- If vacuuming is needed, use the lowest suction and a soft upholstery attachment.
- Treat spills immediately. Blot up as much of the spill as possible with a clean, dry, white cloth. Don't rub.
- In case of a stain, use a clean, slightly damp white cloth, blotting from the outer edge to the center of the stain.
- Do not use any chemical products not designed for polyester.
- To remove pilling, we recommend using an antipilling machine.

Marble furniture

Marble is a natural product, so it needs to be treated with care. Your Ethnicraft marble furniture is finished with an Akemi Oil protection. This is a transparent layer that does not affect the look of the polished marble. However, it is important to know that direct contact with abrasive/high acidity products, even natural (lemons, wine, ...), should be avoided. Due to the porous nature of marble, remove spills immediately as this could cause permanent stains.

REGULAR CARE

- For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

Bathroom

Your bathroom furniture has been finished with products that fulfill the requirements for use within a humid area. Furthermore, we advise the following:

- Install your furniture at a minimum distance of 60cm/23" from your bath or shower.
- Ensure good ventilation and dry off wet surfaces after every use.
- Wooden elements should be cleaned using a damp cloth and natural soap. Wipe in the direction of the grain. Avoid using soap containing detergent or other chemicals.
- Washbasins and mirrors should be cleaned with non-abrasive products.
- Avoid the use of water warmer than 60°C/ 140°F in the wash basins to prevent a thermal shock.

Metal structures

- Dust regularly using a soft dry cloth
- For a more thorough cleaning, use mild soap and warm water. Rinse with clean water and wipe dry.
- Do not use steel wool, sandpaper, mineral acid, bleach, or chlorine cleaners on metal surfaces.
- Do not drag the furniture along the floor, as it might damage the protective coating, cause rusting or leave permanent marks on the floor.
- Always lift the furniture when moving them from place to place.

OUR COMMITMENT

Wood has always been the core material in the Ethnicraft range. We are deeply aware of the impact of our industry on the environment and we take environmental issues to heart: the origin of the wood, the energy we use in the production and distribution process, the treatment of the products and waste reduction – we try to be as environmentally friendly as possible.

THE ORIGIN OF OUR CORE MATERIAL
Ethnicraft works closely together with the Indonesian governmental body in charge of managing the teak plantations originally set up by the Dutch about 150 years ago. This government agency applies strict policies with regard to annual replanting and the size and quantity of trees that can be felled each year. Where our oak and walnut is concerned: we source oak from well-managed forests in Europe and use black American walnut for our designs.

NO WASTE
Production waste such as leftover logs, wood and sawdust are re-used for other purposes. The sawdust from logs is either used as fuel for the drying ovens or compressed as a base for pellets. All the leftovers from cutting planks to size are recycled and used as base material or as box joints for panels.

The ultimate noble and renewable material, our wood is sourced from responsibly and carefully managed forests.

FSC® LABEL FOR OUR FURNITURE
Our commitment to the environment is reflected by the FSC® CoC (Chain of Custody) certification of our distribution centers. FSC® is a worldwide independent, non-governmental, non-profit organisation that promotes responsible management of the world’s forests. In other words, this organisation guarantees that products carrying the FSC® label come from forests that are managed so that they meet the social, economic and ecological needs of present and future generations. In the case of Ethnicraft NV and Azur, the CoC certificate guarantees that the company is perfectly placed to buy, stock and sell products with a specified FSC® certificate, originating from sustainably managed forests, controlled sources and reclaimed materials, or a mixture of these. Other collections carry the FSC® 100% label, which means that these products are made from wood originating from FSC® certified plantations. These ranges are clearly indicated in the catalogue. Moreover, every effort is being made to increase the number of ranges with an FSC® label.
