## *SHARE OUR PASSION*

At Beaulieu we dream, feel, live and love flooring. More than just making beautiful floors, we create visually pleasing, durable, quick to install and easy to maintain solutions. As the European leader in wall-to-wall flooring, we stand for excellent value for money, continuous innovation as well as a dedicated and personal service. In short, we provide you with the best of the best in a greener and more sustainable way.

Our passion for flooring is reflected in one of our divisions, BerryAlloc. This internationally renowned and highly rated range also offers you wonderful laminate for residential and commercial use, wall panels for kitchens and bathrooms and a complete parquet flooring series each with accompanying accessories.

In this brochure we present to you the Vinyl Planks collection (aka LVT - Luxury Vinyl Tiles). Enjoy DreamClick, the new and revolutionary locking system and choose any design you see fit for your home. But most of all be inspired and share our passion.

MINDSET

4.

BLOOM  
MINDSET

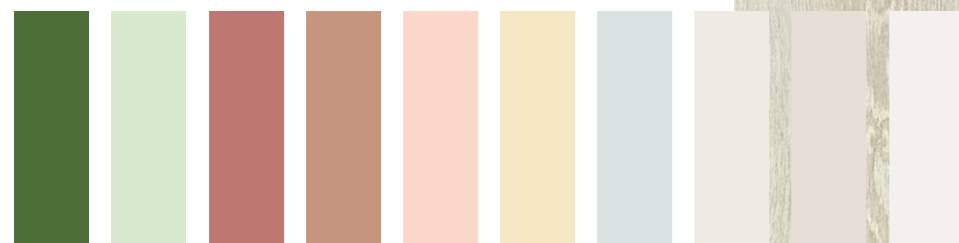

1.

# SENSE

Those who stay abreast of developments will have noticed that many buzzwords are popping up that describe a commitment to simplicity: downsizing, de-cluttering, under-consumption ...Those words suggest a trend in society: people are fed up of over-consumption and want to get back to basics.

Consumers avoid fashion statements, showy interiors and garish colors. These are giving way to sober lines, quality materials and muted colors. This new type of minimalism distinguishes itself by a very light, playful feeling.

SOFTNESS  
CLEAN  
MINIMAL

The color palette of Sense, consists of light pastels, from butter yellow, over peach to water green. All colors can be combined perfectly.

TOULON OAK 109S

Interiors are stripped of all superfluous ballast. Renowned for their simplicity, utility, and beauty, these interiors have a pure, pared back style and are characterized by the use of honest materials and minimal ornamentation. Muted pastel tones, beige and grey play a major part. A whole range of beige and light grey tones have been added to the BerryAlloc collections to create a Sense interior at home.

A neutral, light oak will certainly be in keeping here or go for a lovely white floor if you want an even purer look. Accessories in pastel tones complete the look.

COLUMBIAN OAK 946M

2.

# SOURCE

Internet is everywhere: on our smart phones, in smart watches, in cars and even in household appliances. But being constantly online has its limits. Sometimes we want to get away from the digital world: do things with our hands and experiment.

As a reaction to too much input, we consciously choose non-digital experiences. We long for the tactile and want to stimulate our senses. We leave the speed and transience of the digital world behind us: we seek concentration and focus, time to organize our thoughts. And so, FOMO (fear of missing out) steps aside for JOMO (joy of missing out).

AUTHENTICITY  
ROUGHNESS  
WARMTH

LIME OAK 979M

Source consists of sand and clay colors, complemented with soft pink and off-white.

Do you like an interior with an authentic look? Then the mindset Source is just for you. You can create this warm kind of home by combining heavy furniture with rough materials. Handmade carpets on a weathered floor, genuine antiques or other accessories in natural elements complete this look.

By choosing weathered structures in woods and tiles out of the BerryAlloc collections you can get extremely close to the natural parquet look and furthermore enjoy the ease of maintenance of a vinyl floor.

TOULON OAK 293M

3.

# GLAM

The more we read in the media about savings, the less we care. We want to enjoy life without feeling guilty. Sometimes a person just feels like oysters and champagne!

Anything elaborate, baroque or over the top, is becoming hip again. We dress up for special occasions. For that, inspiration comes from the renaissance. In interiors, real antiques are making a comeback after many years of having faded into the background to make room for vintage.

## GLAMOROUS CHIC *FESTIVE*

The Glam palette consists of metallic gold and bronze tints, ame red and orange, complemented by deep blue, green-grey and black.

Something is glamorous when it looks special. Materials can be glamorous. Metals can be glamorous. Colors can be glamorous. These all evoke a feeling of richness and sophistication. It's that certain 'joie de vivre' that only comes with gold, silver, bronze, or rich and luxurious fabrics. If you want your home to look dazzling, choose a bronze or dark anthracite BerryAlloc floor. Even black woods and tiles could work. Think of it as jewelry for the room.

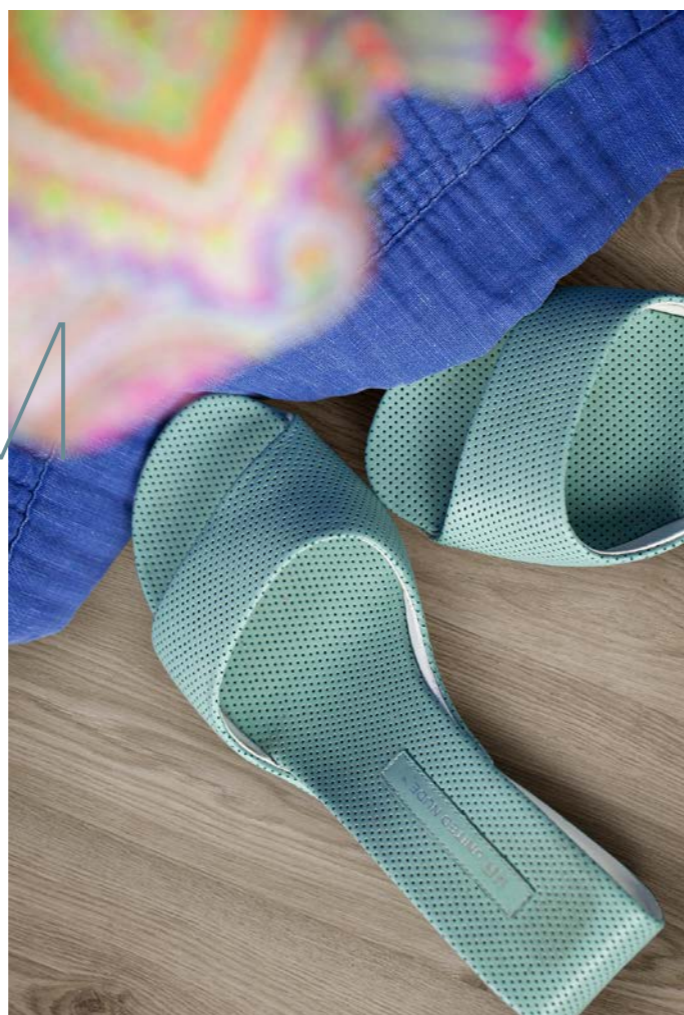

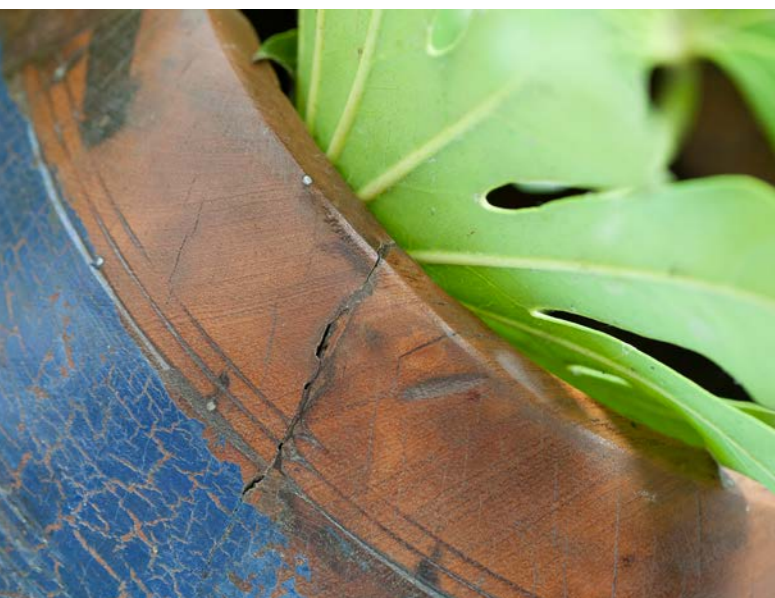

Blue and white porcelain, rich silks in blues and reds, deep velvets in purples and gold. These are tradition and classic colors that evoke a feeling of glamor. The application of fine materials, fabrics or finishes all can be very glamorous, especially when paired with rich metals and sparkling cut crystal.

4.

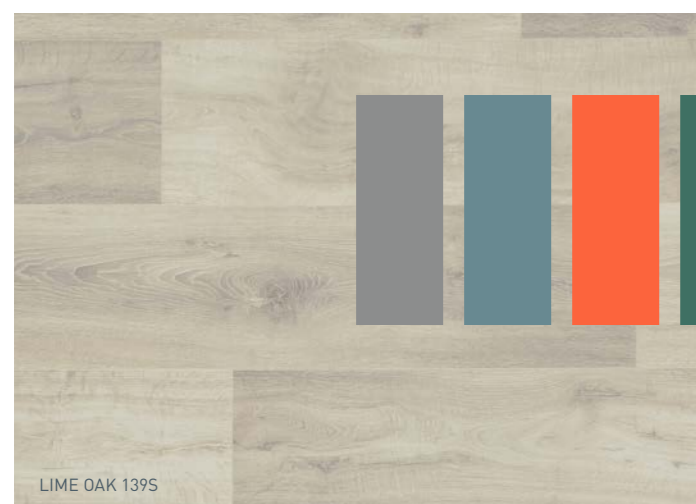

# BLOOM

People of today are office animals. Many stay indoors all day, sitting in a chair. Research shows that this is absolutely not healthy. And that is why we all want to go out and re-connect with nature.

We see it in contemporary housing where the line between indoors and outdoors is blurring. Large bay windows, winter gardens, patios and terraces are bringing more green into our homes.

## DISCOVERY FRESHNESS GARDEN

The color palette of Bloom, is inspired by a colorful garden. From sunny yellow over fuchsia to purple. Shades of green are combined with bright orange and ocean blue.

But how can you create such a colorful kind of home? By choosing a BerryAlloc floor with bold colors or graphical designs. These kind of floors ensure that it looks completely contemporary and does not create an old-fashioned looking interior.

Everywhere we see prints of flowers, butterflies and insects that serve as decorative elements. It's a mix and match of styles and colors with an optimistic outcome.

**ON  
SCREED**

**ON  
OLD TILES**

**ON  
EXISTING  
SUBFLOOR**

COLUMBIAN OAK 946M

# QUICK & EASY just click it!

## Little or **NO** subfloor preparation needed

PURE vinyl planks and tiles can be installed much faster than any other floor, thanks to their levelling properties.

Almost any subfloor will do. You can install PURE directly on top of an existing tile floor, without print-through of the tile joints. Other suitable subfloors: surfaces with small residues of glue and ordinary screed.

All this is made possible thanks our advanced RCB technology (Rigid Composite Board).

No dust, no mess, just cut the planks into the right size with a Stanley knife.

## Made in Belgium

BerryAlloc vinyl planks are developed and produced in Belgium.

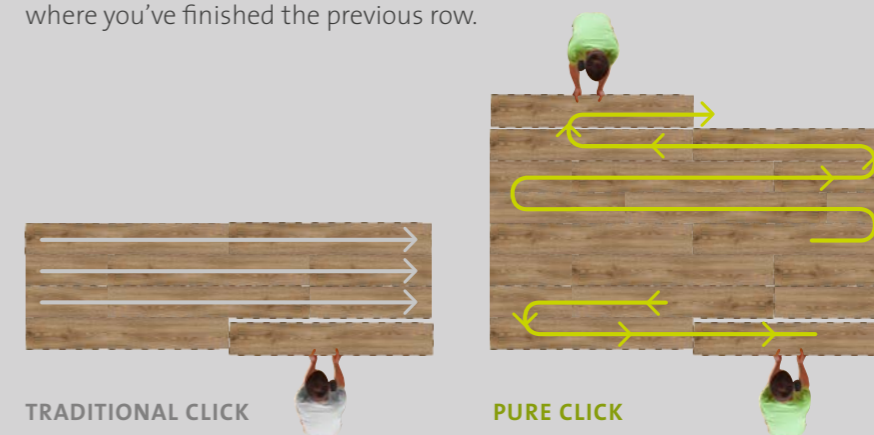

# FAST & simple installation

## Super fast installation

Thanks to the DreamClick locking system, any PURE floor can be ready and installed in no time. The 4 sided identical locks allow you to install your PURE floor faster than traditional click systems. You can start the next row where you've finished the previous row.

## Working together on the same floor

PURE allows to have several installers working simultaneously on the same floor, to finish your room in no time. The planks can be clicked together on all sides, so you can start the installation in any direction.

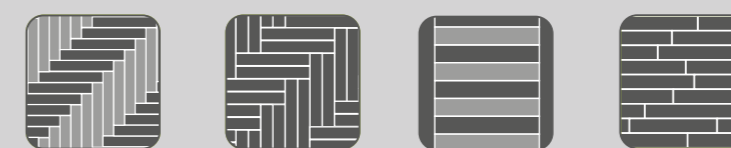

## Dreamclick, the strongest locking system

Our DreamClick locking system is the best on the LVT market. With a lockstrenght of 500 kg Pure Click can withstand heavy loads and frequent traffic with the greatest ease!

## Create stunning patterns and designs

it's easy as a child's play, and also more fun: mix several colors to create a staggering effect.

VIDEO  
PURECLICK

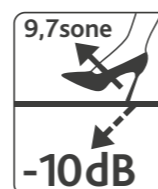

LIME OAK 954D

## SUPER SILENT floor

### Up to 50% more silent

Whether you are walking around in your high-heels or feel like a lazy day in your slippers, Pure always stays noise-free. With an exceptional noise absorption of 10 dB, PURE is up to 50% more silent than other LVT floors. This is pleasant for both you and your neighbours.

## 100% **WATERPROOF**

### Ideal for bathroom & kitchen

Looking for a floor that can stand up to wet and dirty shoes or children who turn your bathroom into a swimming pool? Then a PURE floor is just what you need: the floor boards are waterproof, so they are ideal to install in your bathroom, kitchen or other wetrooms.

### Easy to clean

A PURE floor requires very little maintenance. PURE has a protective polyurethane lacquer, which makes the floor easy to clean and protects it against daily wear and tear. All that is required is an occasional sweep with a wet mop and standard cleaning products.

COLUMBIAN OAK 939M

# PURE comfort

## Warm touch

PURE vinyl floors stand for comfort in its purest form. They really reach out to all your senses. Not only are the decors a delight to the eye, they also feel warm to the touch and cosy to the feet.

## Suitable for floor heating

PURE floors have a good heat conduction, making them the ideal match for your floor heating.

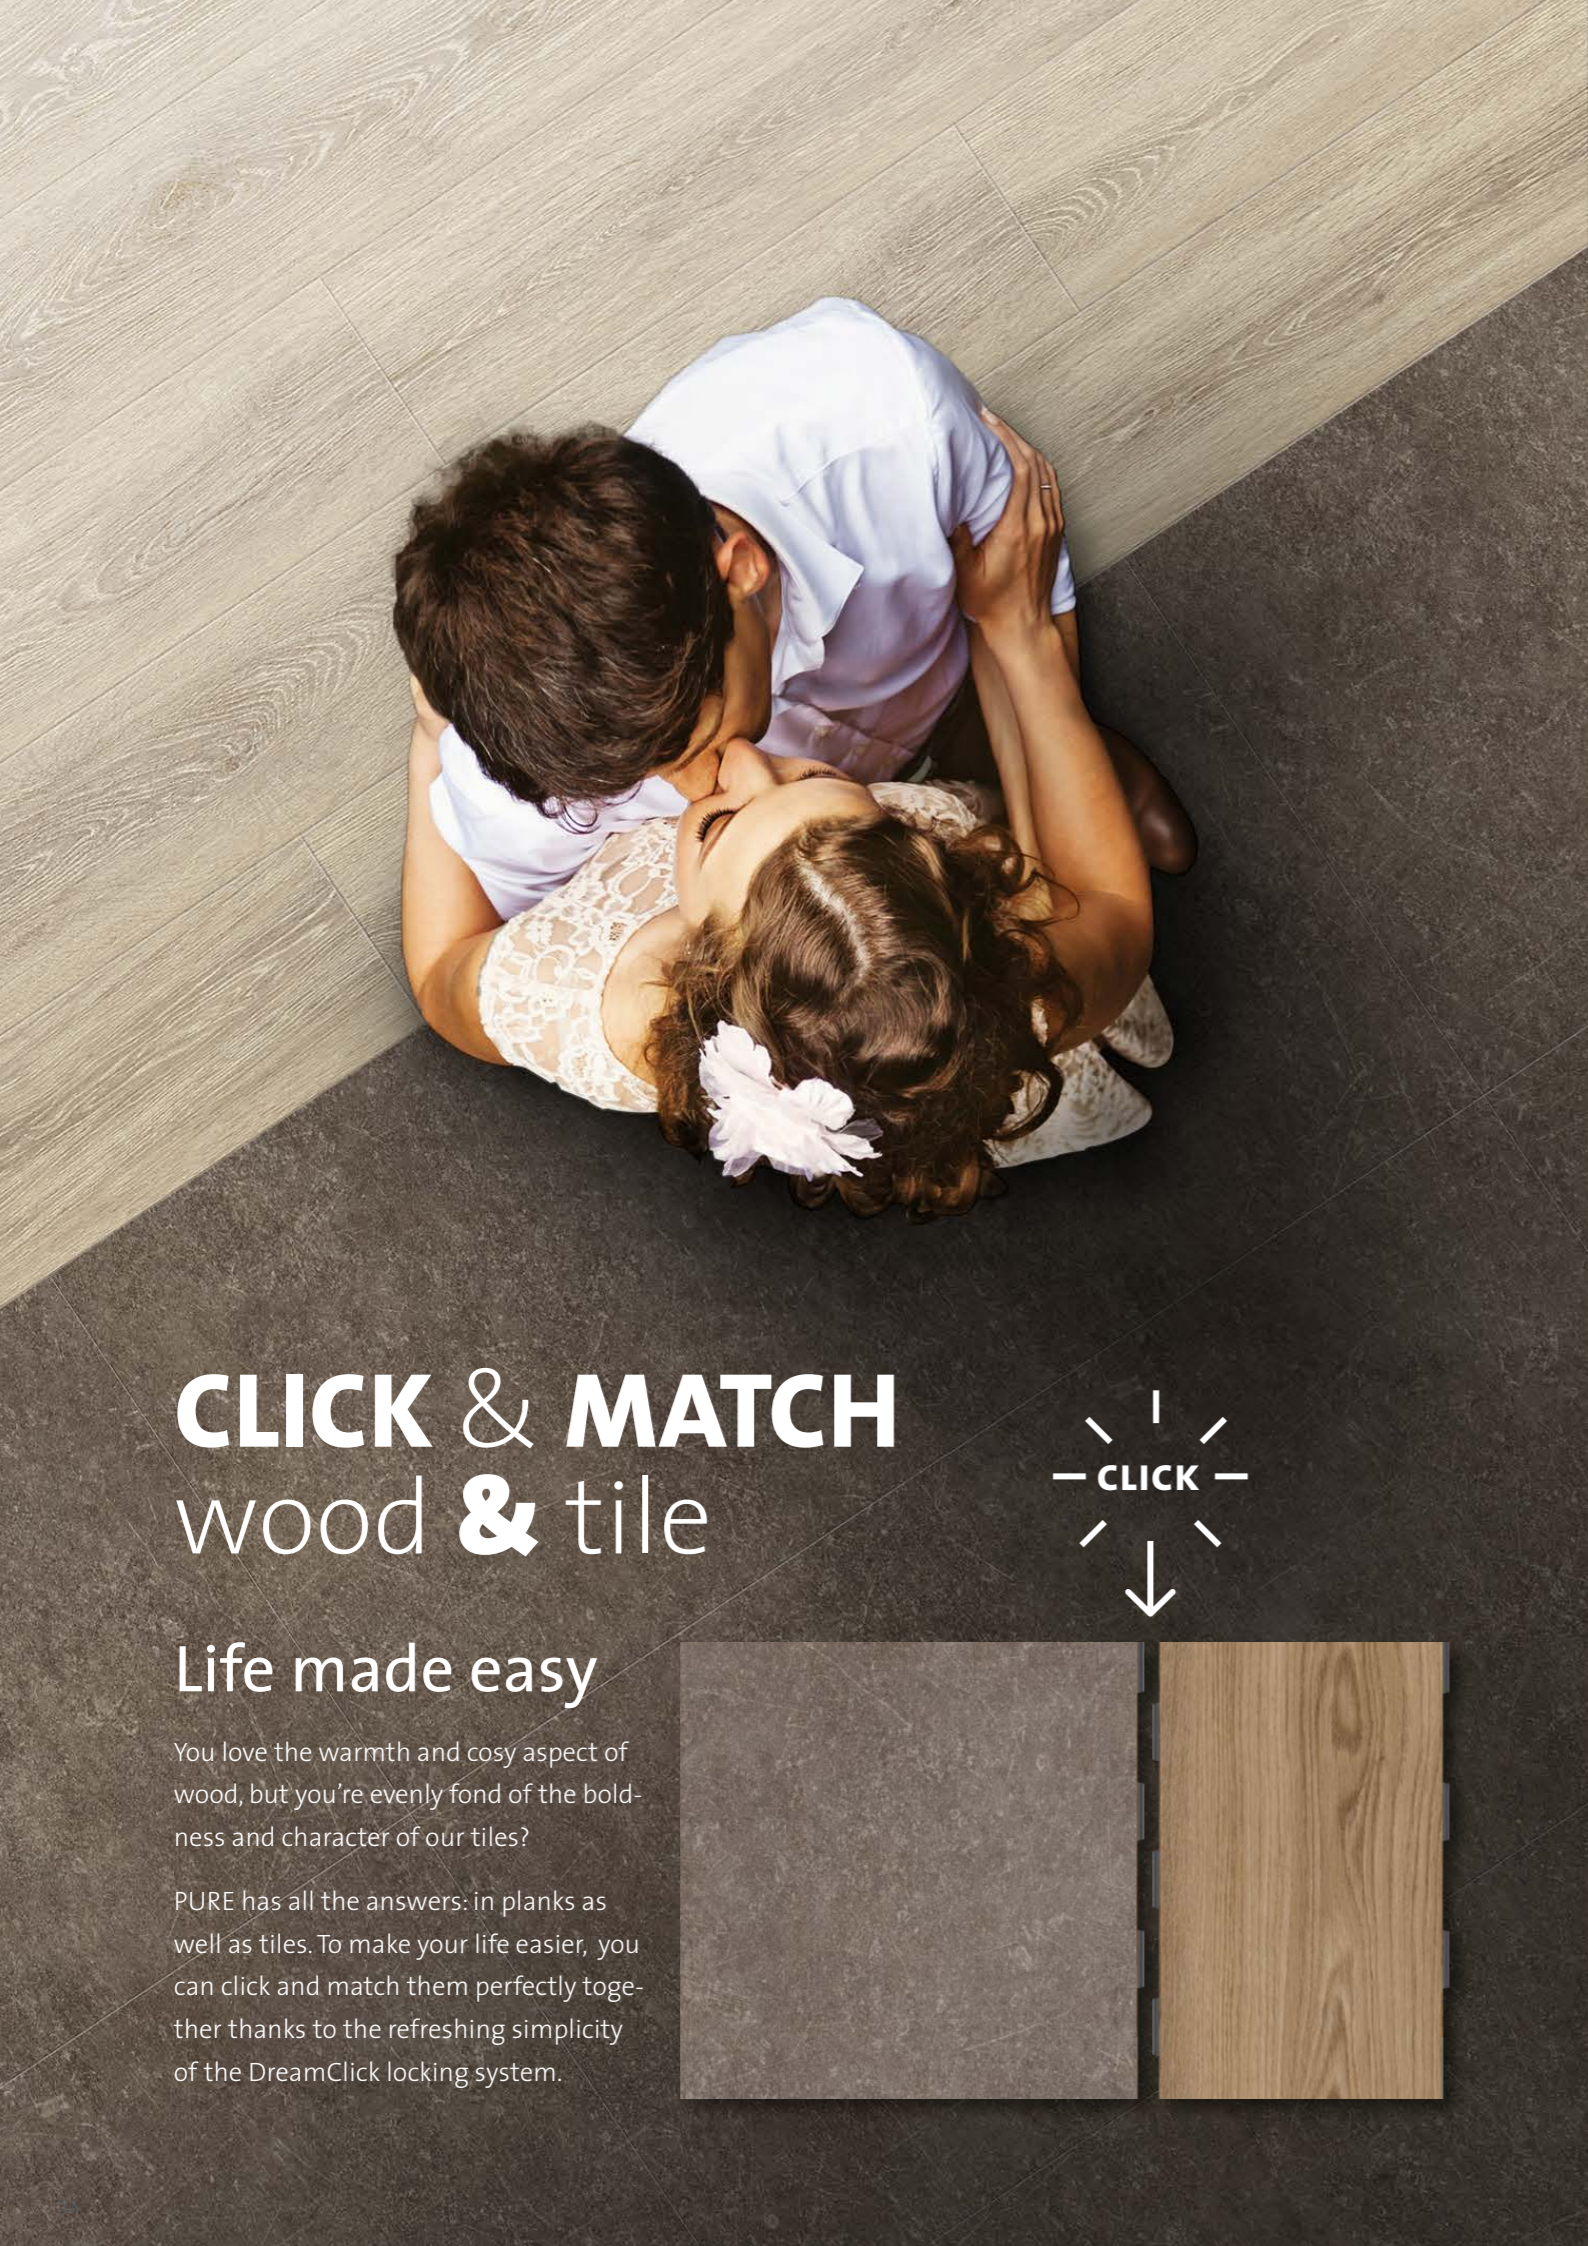

# SUPER LIGHT planks

## Up to 30 % lighter than other click flooring

The Rigid Composite Board makes PURE Click planks up to 30% lighter than other click flooring, leading to easier manipulation during transport and installation. The boards are light, but ultra strong.

# CLICK & MATCH wood & tile

## Life made easy

You love the warmth and cosy aspect of wood, but you're even fond of the boldness and character of our tiles?

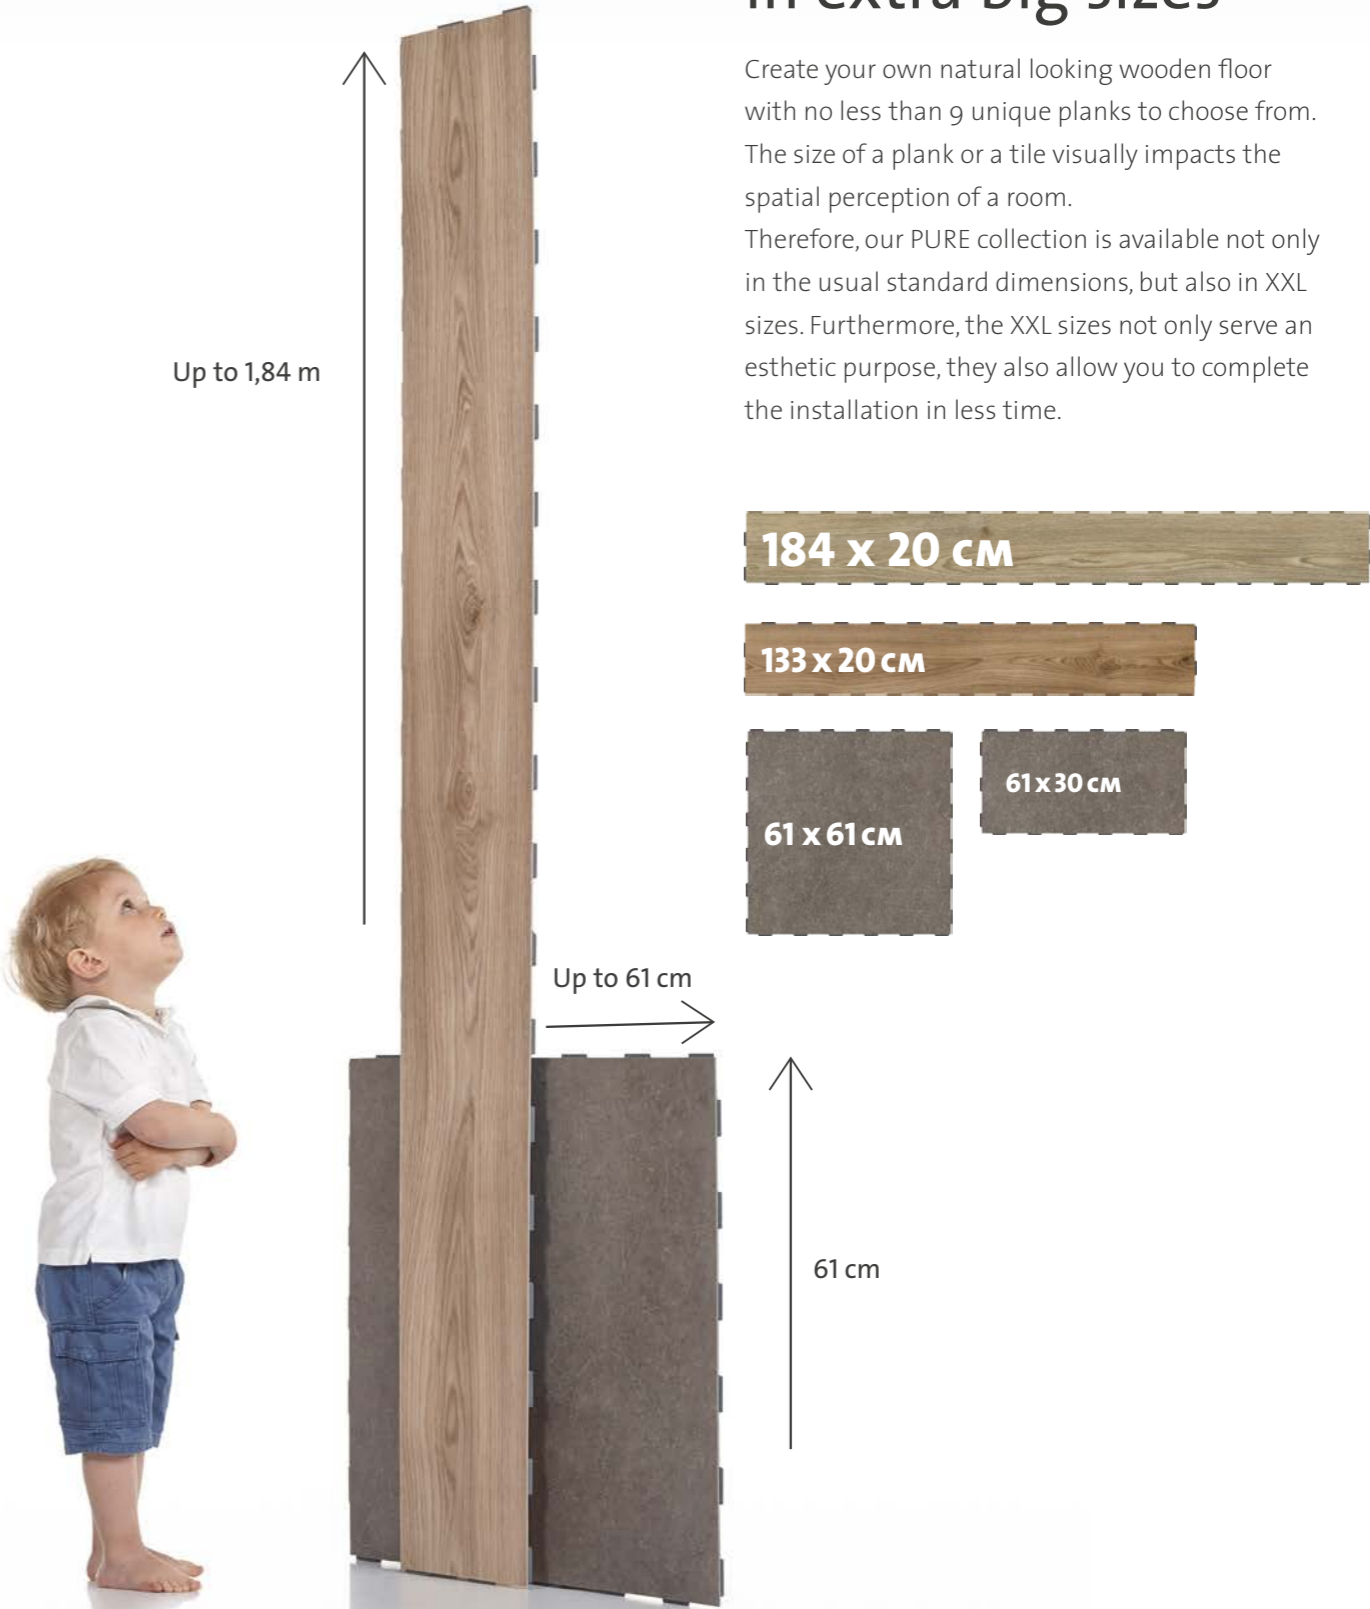

PURE has all the answers: in planks as well as tiles. To make your life easier, you can click and match them perfectly together thanks to the refreshing simplicity of the DreamClick locking system.

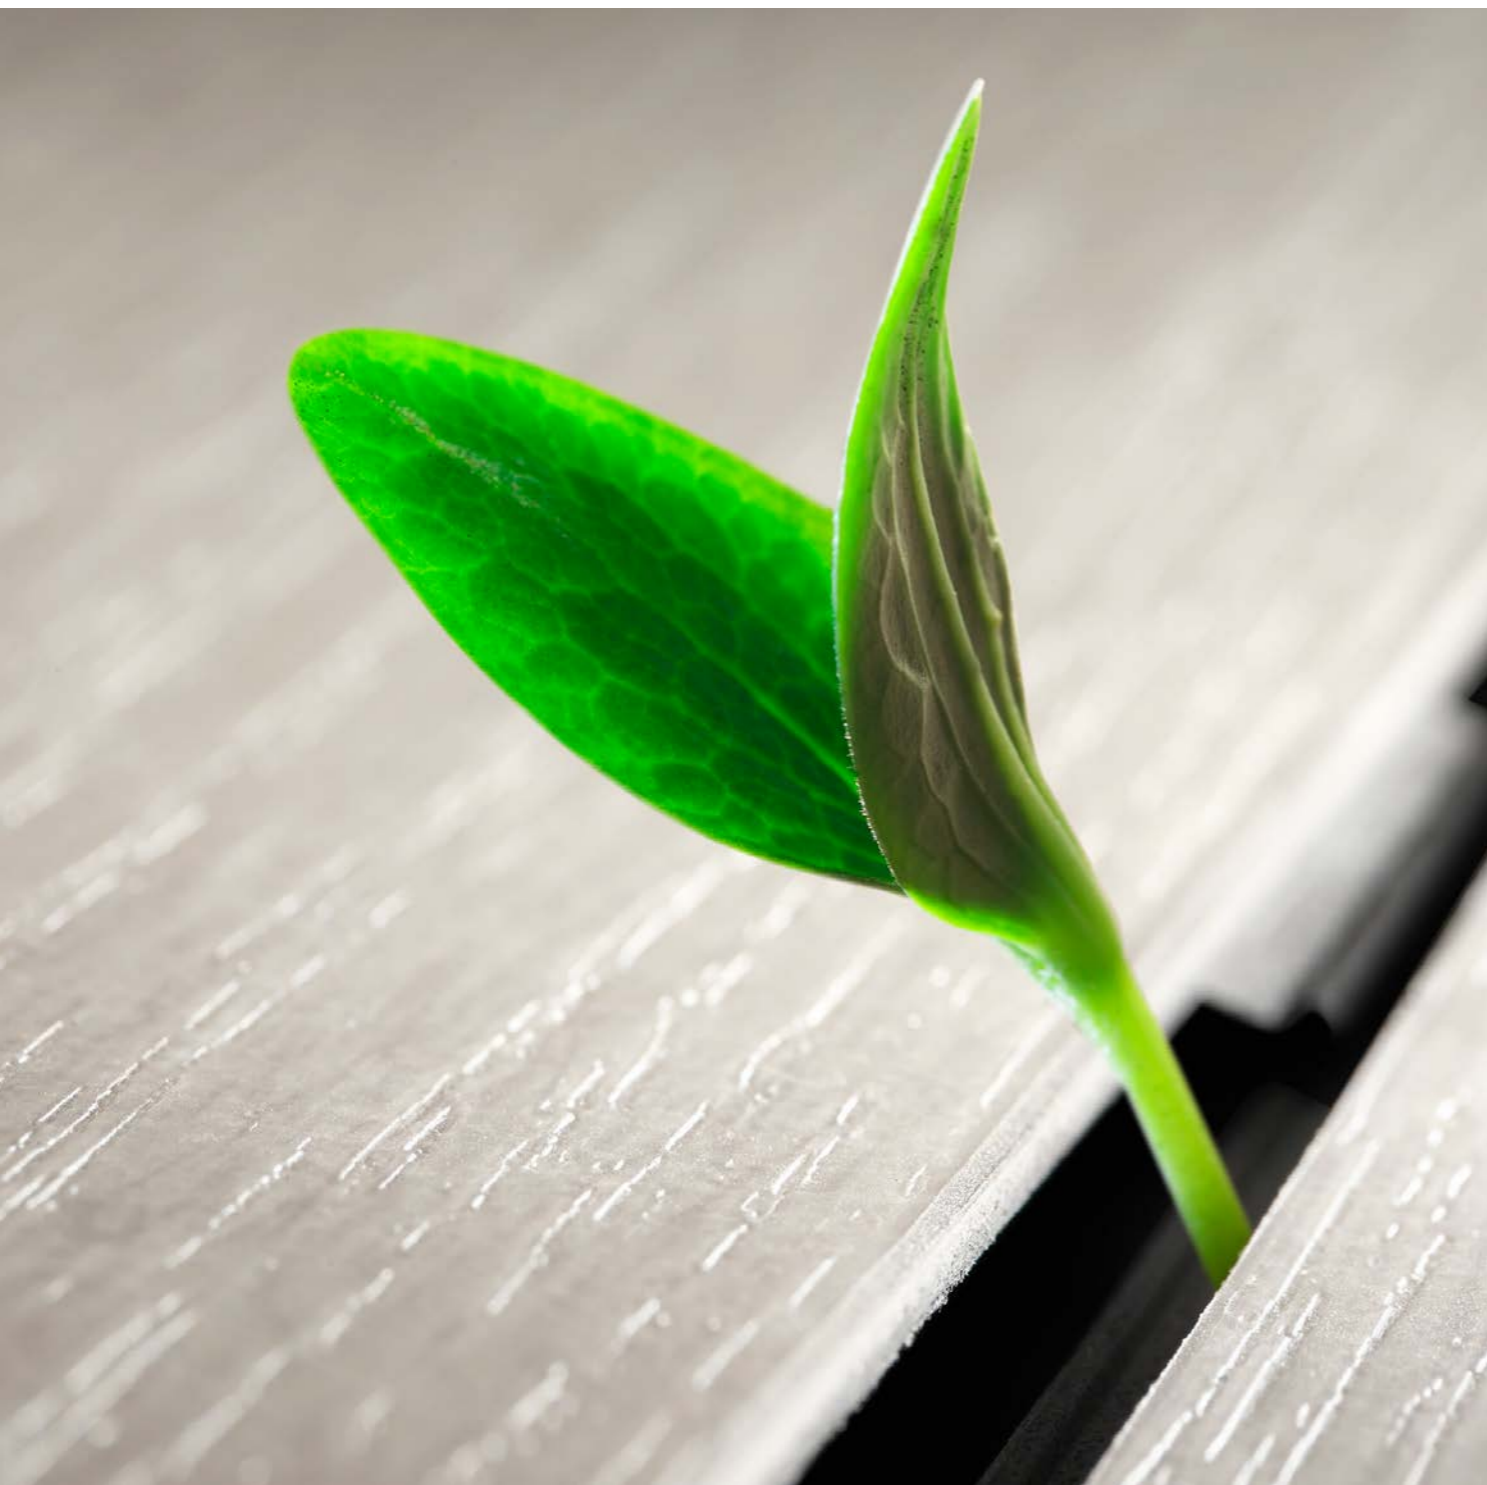

# XXL sizes

## Our floors come in extra big sizes

Create your own natural looking wooden floor with no less than 9 unique planks to choose from. The size of a plank or a tile visually impacts the spatial perception of a room. Therefore, our PURE collection is available not only in the usual standard dimensions, but also in XXL sizes. Furthermore, the XXL sizes not only serve an esthetic purpose, they also allow you to complete the installation in less time.

# 100% recyclable

## Respect for nature & environment

BerryAlloc products and manufacturing processes are continuously improved and adapted to reduce the life-cycle impact on the natural environment. Our responsible attitude leads to products such as PURE that perfectly fit in the environmental consciousness. PURE vinyl floors are 100% recyclable, making it a perfect floor for the world of tomorrow.

TOULON OAK 936L

# YOUR IDEA OF A LIVING ROOM

Nothing beats the feeling of coming home after a hard day's work and relaxing in the warm surroundings of a cosy living room. No one knows this better than Katy and Nathan. That's why they fell for the pleasant feel of vinyl plank flooring.

“

*The click system made it really easy  
to install this floor!”*

– Nathan (32) –

## Warm floor, Comfy space

“In our living room we like everything to be calm and cosy. Shoes off, lie on the couch and enjoy. No stress, just relax. To create that atmosphere we picked a warm floor that reflected our lifestyle. The BerryAlloc PURE vinyl plank collection came in a wide variety of designs and colours. There were more than 40 unique and exclusive wood and tile designs! With such a wide range, from soft to more rustic we had no trouble finding the floor we liked. Today, we enjoy the realistic look of our PURE floor, and its warm wood structure and subtle bevels. Home sweet home!”

# IT'S A DREAM COME TRUE

The bedroom is a place to enjoy a good night's sleep. That's why it has to feel comfortable, and sooth all your senses. "Besides, our kids are allergic to dust, so we wanted to be sure the environment was hygienic and easy to clean", says Ann.

"A friend of ours suggested we lay vinyl planks in all the bedrooms. They come in a wide range of designs and colors, and have the right qualities to create a nice and quiet bedroom environment. The special acoustic vinyl top layer provides an ultra-light walking sound and a soft and warm surface. No noise of your children's feet when they're running around. No more cold feet when you have to get out of bed at night. Moreover, the vinyl PUR coating makes the floor easy to clean and ultra hygienic. You just need a little water and a mop. It's really a dream come true!"

“

*"Vinyl planks feel warm and cosy. So, no more cold feet when you have to get out of bed!"*

– Ann (42) –

# ENJOY A KITCHEN TO YOUR TASTE

Tastes vary and we don't just mean in terms of food. When it comes to interior design different people like different things too. Are you into country or urban styles? Do you prefer something modern or classic? Patricia and Eric had a taste of our collection and were delighted.

"A kitchen floor isn't about style alone. It has to fit into the bigger picture. It needs to be practical, easy to clean and hard-wearing too. The kitchen is the centre of our home and the place where everybody comes together to eat, drink, work and play. Once in a while things get spilt on the floor or someone runs over it in dirty shoes.

That's why we fell for PURE vinyl planks. They are easy to install, available in any design and colour, and maintenance-friendly. All you need is water and a cleaning product to keep the floor in tip-top condition. The pleasant feeling of warmth and silence is a nice bonus."

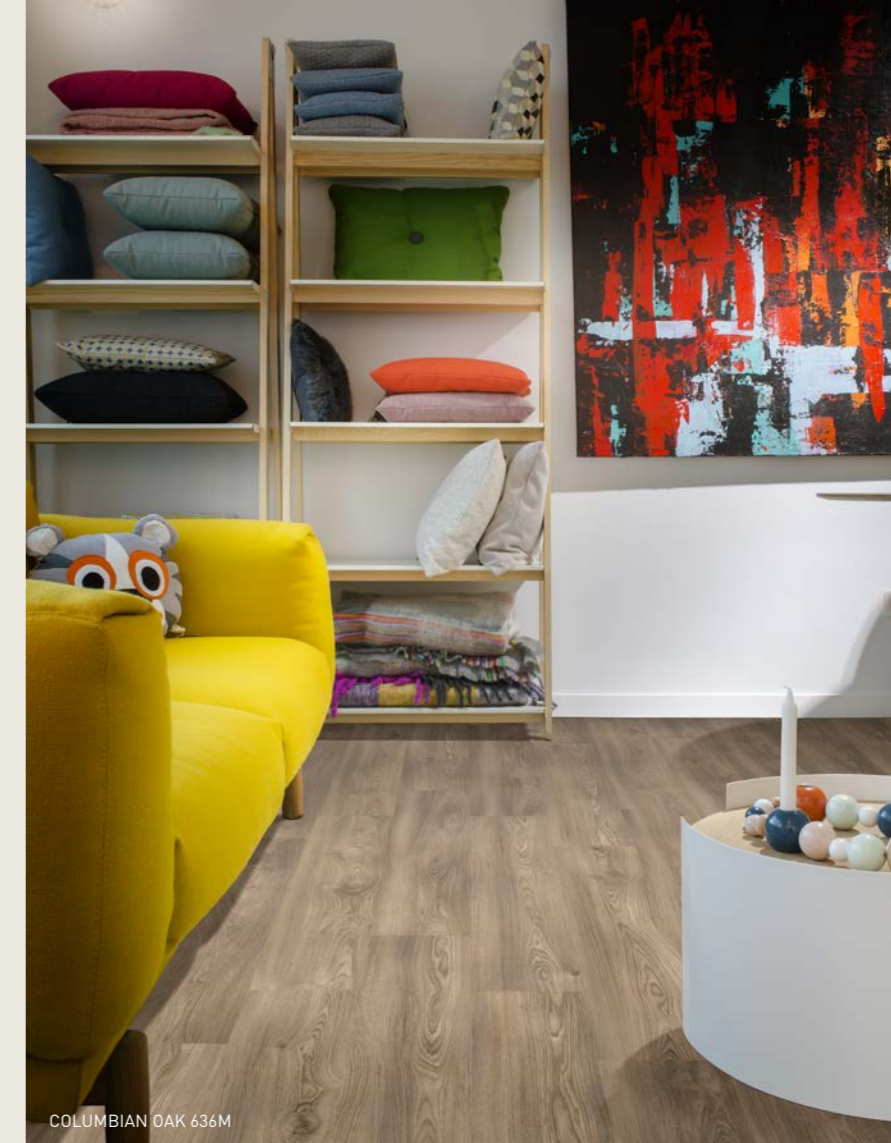

“

*"I like a clean kitchen with a cosy atmosphere. The design and low maintenance of this floor have exceeded my expectations."*

— Patricia (51) —

# MATCHING THE TRENDS WITH YOUR **lifestyle**

COLUMBIAN OAK 636M

"Every day our shop attracts plenty of people. Due to the high traffic, the floor needs to be ultra wear resistant. That's why we chose vinyl plank flooring when we renovated the shop last year. They are not only hardwearing, but also easy to install. We only had to close for one day! Two workers installed the floor side by side, without creating huge clouds of dust. There was no mess, we could leave all of our products on the shelves and were ready to re-open in the nick of time!"

COLUMBIAN OAK 636M

# THE **right solution** FOR COMMERCIAL FLOORING

COLUMBIAN OAK 636M

COLUMBIAN OAK 939M

# A great place TO WORK

"In our business, time is money. That's why in our offices, we installed PURE Click. The DreamClick locking system resulted in considerable time savings and brought down the total cost of installation. Besides, the vinyl floors withstand heavy traffic and rolling loads, and reduce maintenance thanks to the heavy-duty wear layer and PU surface. PURE Click floors are 100% recyclable. An important plus for a sustainable company like ours!"

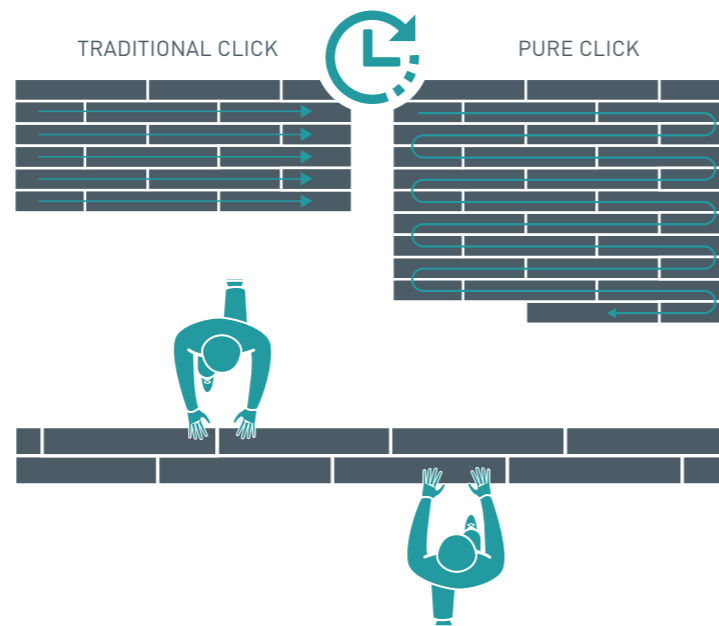

LIME OAK 139S

## A revolutionary click system

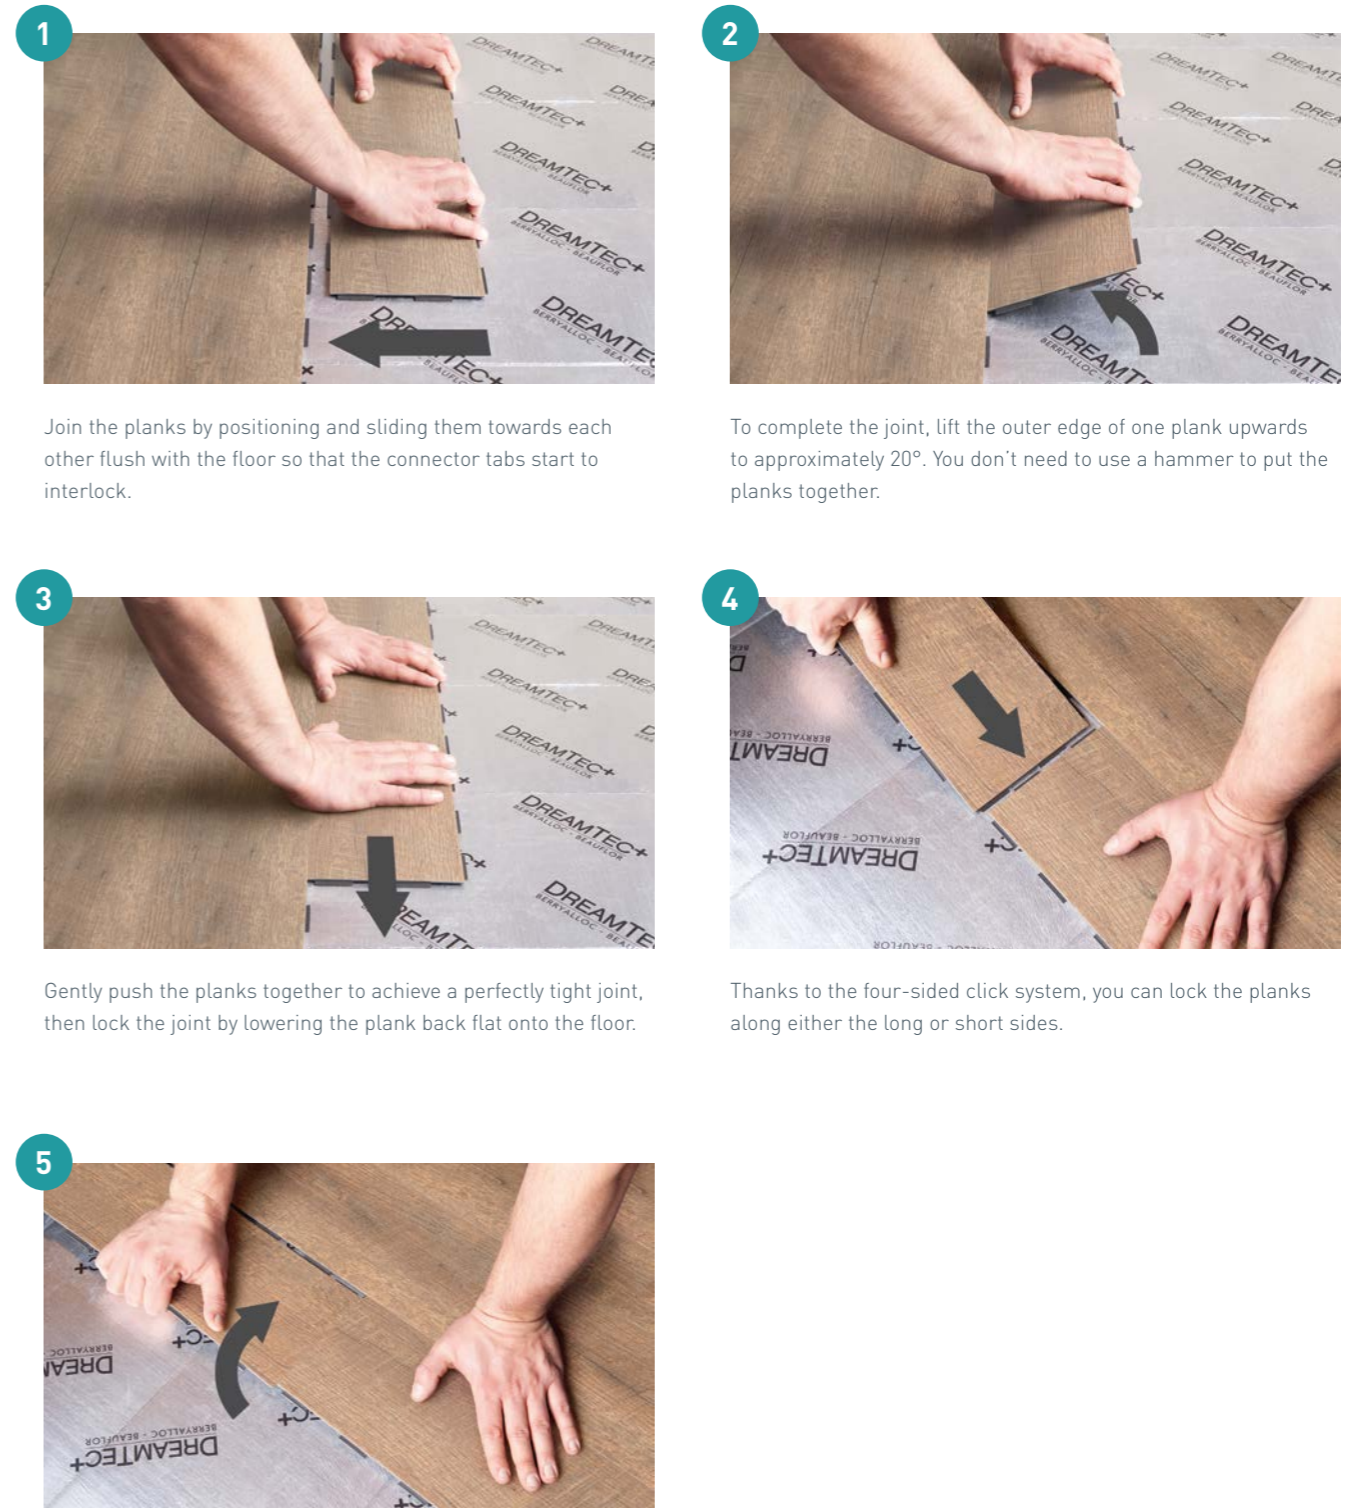

### A 360° LOCKING SOLUTION

- Super-fast installation: PURE Click is unbeatable for installation thanks to its unique identical interlocking profile on all 4 sides. No need to walk back to the other side of the room to start the next row. Start the installation in either corner of the room and click your way to the other side. You can start the next row where you've finished the previous row.
- Expand your creative thinking and fit any floor pattern you can think of. You can even mix several colours to create a staggering effect.
- Several fitters can work simultaneously on the same floor. You can finish any room in no time at all!
- Thanks to the solid and more Rigid Composite Board (RCB), PURE Click is unaffected by high moisture levels and is extremely stable at normal room temperatures.
- The strong joints give a greater resistance to heavy traffic and rolling loads.
- PURE Click: lifetime warranty for residential use.

- 1 Protective PU lacquer
- 2 Wear layer (0,40/0,55 mm)
- 3 Acoustic vinyl decor layer (with fiberglass)
- 4 Rigid Composite Board (RCB) with DreamClick locking elements

## How to click your floor

Join the planks by positioning and sliding them towards each other flush with the floor so that the connector tabs start to interlock.

To complete the joint, lift the outer edge of one plank upwards to approximately 20°. You don't need to use a hammer to put the planks together.

Gently push the planks together to achieve a perfectly tight joint, then lock the joint by lowering the plank back flat onto the floor.

Thanks to the four-sided click system, you can lock the planks along either the long or short sides.

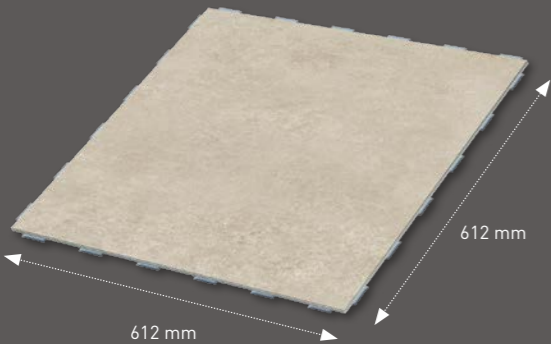

Join the short side so that the connector tabs start to interlock. Slide the long side into the previously installed row. Lift slightly, click and push down.
