**Style. Let's
enjoy the little
things in life.**

The floor is yours.

A floor that is inspired by nature and made for your life.

A floor that upgrades your home. And your life. A floor for people who have an eye for beauty. Who enjoy the luxury of living in a stylish home every single day.

This is the perfect combination of beauty and comfort. Unbelievably easy to install, to maintain and guaranteed to look spotless year after year.

A high-quality product that easily withstands the challenges of everyday life. It provides the stability you need to live your life without worrying about your floor.

A floor that is loved by hard-working people relaxing at home. By children playing freely. By friends and families having spontaneous living room parties.

A floor that fits your lifestyle.

Add some style to your home

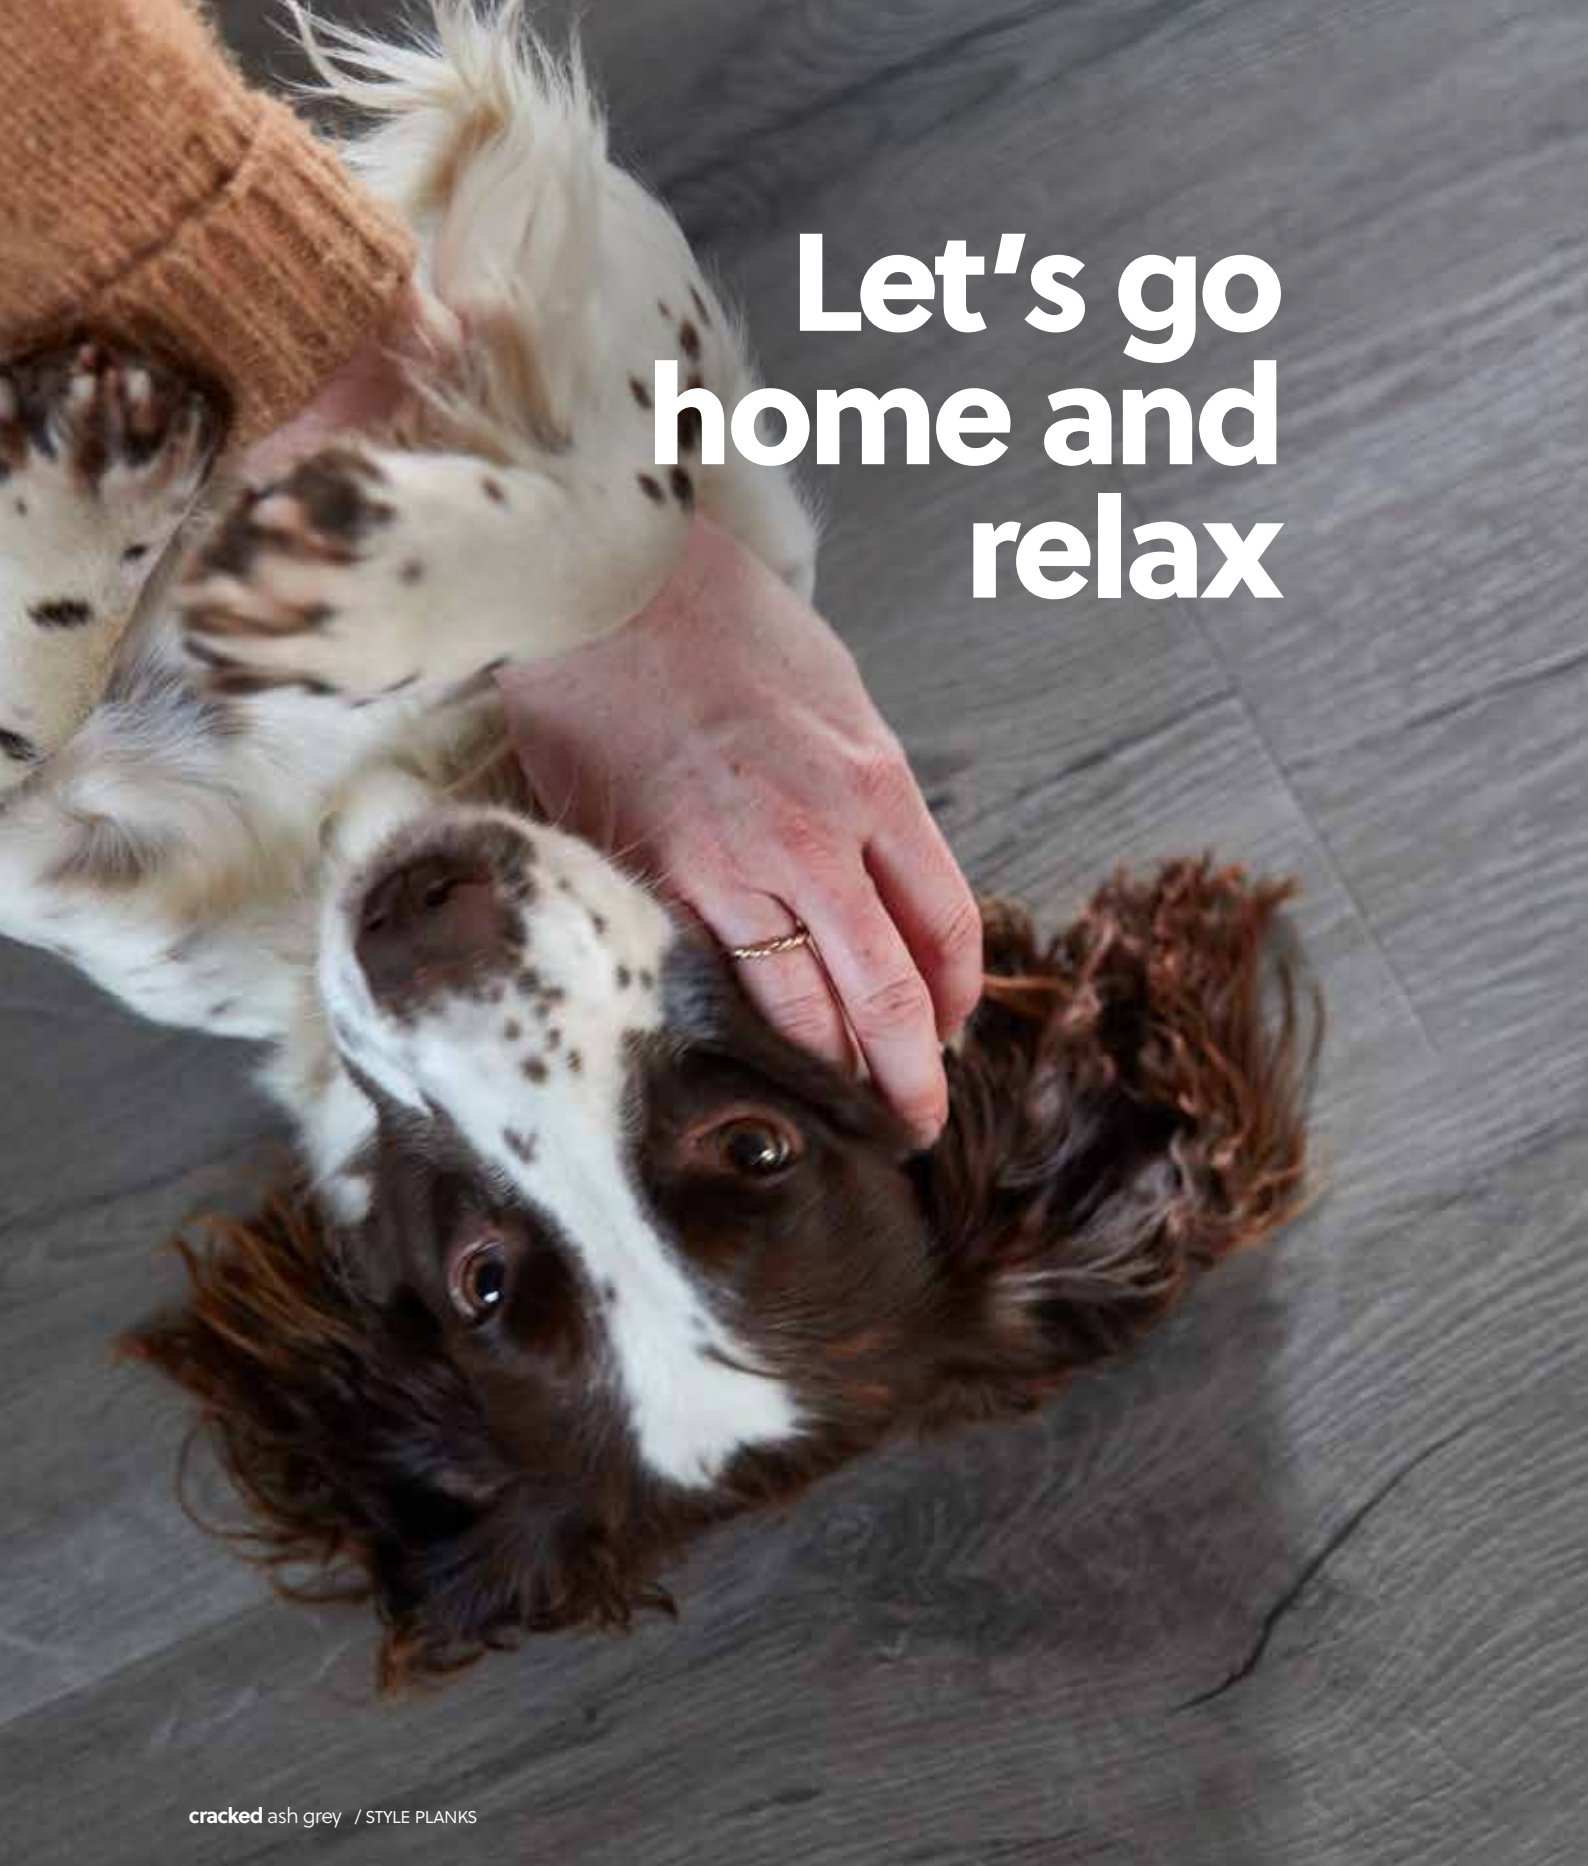

Great design that doesn't stop you from living.

Stay close to nature. Feel the structure and look at the colours of real wood.

A wide-angle photograph of a modern, minimalist living room. The room features a large, light-colored wooden ceiling with exposed beams and recessed lighting. The walls are a neutral, light beige. On the left, there are three large windows with light-colored curtains. In the center, a long, grey sectional sofa is arranged in an L-shape. A round, dark green ottoman and a round, gold and black coffee table are in the center of the room. To the right, there is a fireplace with a white mantel and a glass front, showing a fire. A small, white dog with brown spots is lying on the floor near the fireplace. A red armchair is also visible on the right. The floor is made of light-colored wood planks.

perfect home
starts with a
classy foundation.**

Let's go
home and
relax

cracked ash grey / STYLE PLANKS

The most beautiful thing on earth is nature itself. Our designers are constantly working to recreate nature as closely as possible. They look, touch, design, produce and start all over again. To give you that feeling of pure relaxation one can only get from spending time in nature, right into your home.

vivid light / STYLE PLANKS

**Find some
peace and quiet
in every room
of your house.**

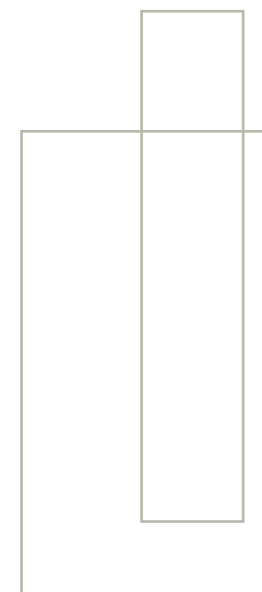

why choose / style.

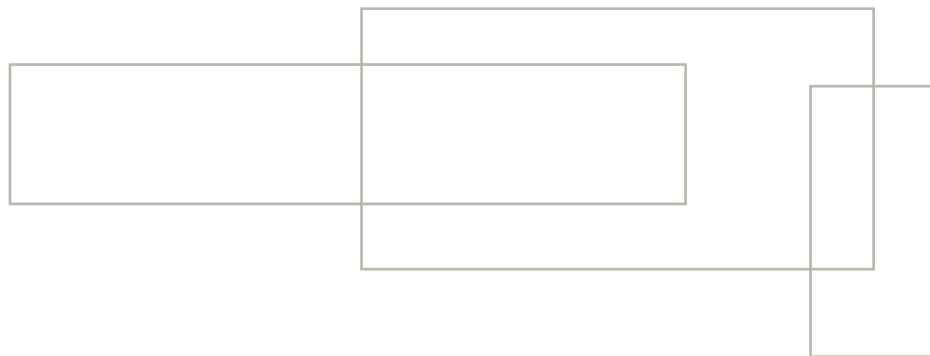

Inspired by nature

The Style collection is all about the details. Our designers immersed themselves in nature to really understand what wooden structures feel and look like. They combined this research with great craft to create four wonderful wood looks. Four unique designs that you won't find anywhere else. Ready to make your home look cozy and elegant? Just touch it and feel that detailed structure. Look at how we played with all those natural colours and tones to recreate the feeling of real wood.

While these planks resemble wood almost perfectly, they of course have all the benefits of a vinyl floor. You can fully enjoy your moments at home without having to worry about your floor. No stains, no scratches. So dance on it when you're home alone. Let your children build a camp or get creative with clay. Have a party without worrying about a spilled glass of wine. Just give it a sweep afterwards and your floor will look spotless again.

Light & rigid floors

Style is the result of years and years of making and developing vinyl floors. More stable and lighter than any other rigid floor out there.

Style is an extremely reliable floor that guarantees stability when temperature changes. Thanks to our **patented Rigid Composite Board, or RCB**, you can easily install Style in front of large, panoramic windows. This RCB formula makes sure that sudden changes from warm to cold or the other way around won't affect your floor. And with its strong lock, Style can easily withstand the traffic of your everyday life.

Thanks to the **foam structure**, the planks are **lightweight**, which is great for transportation and extremely easy for you to install.

Style is not only light for you, but also for the

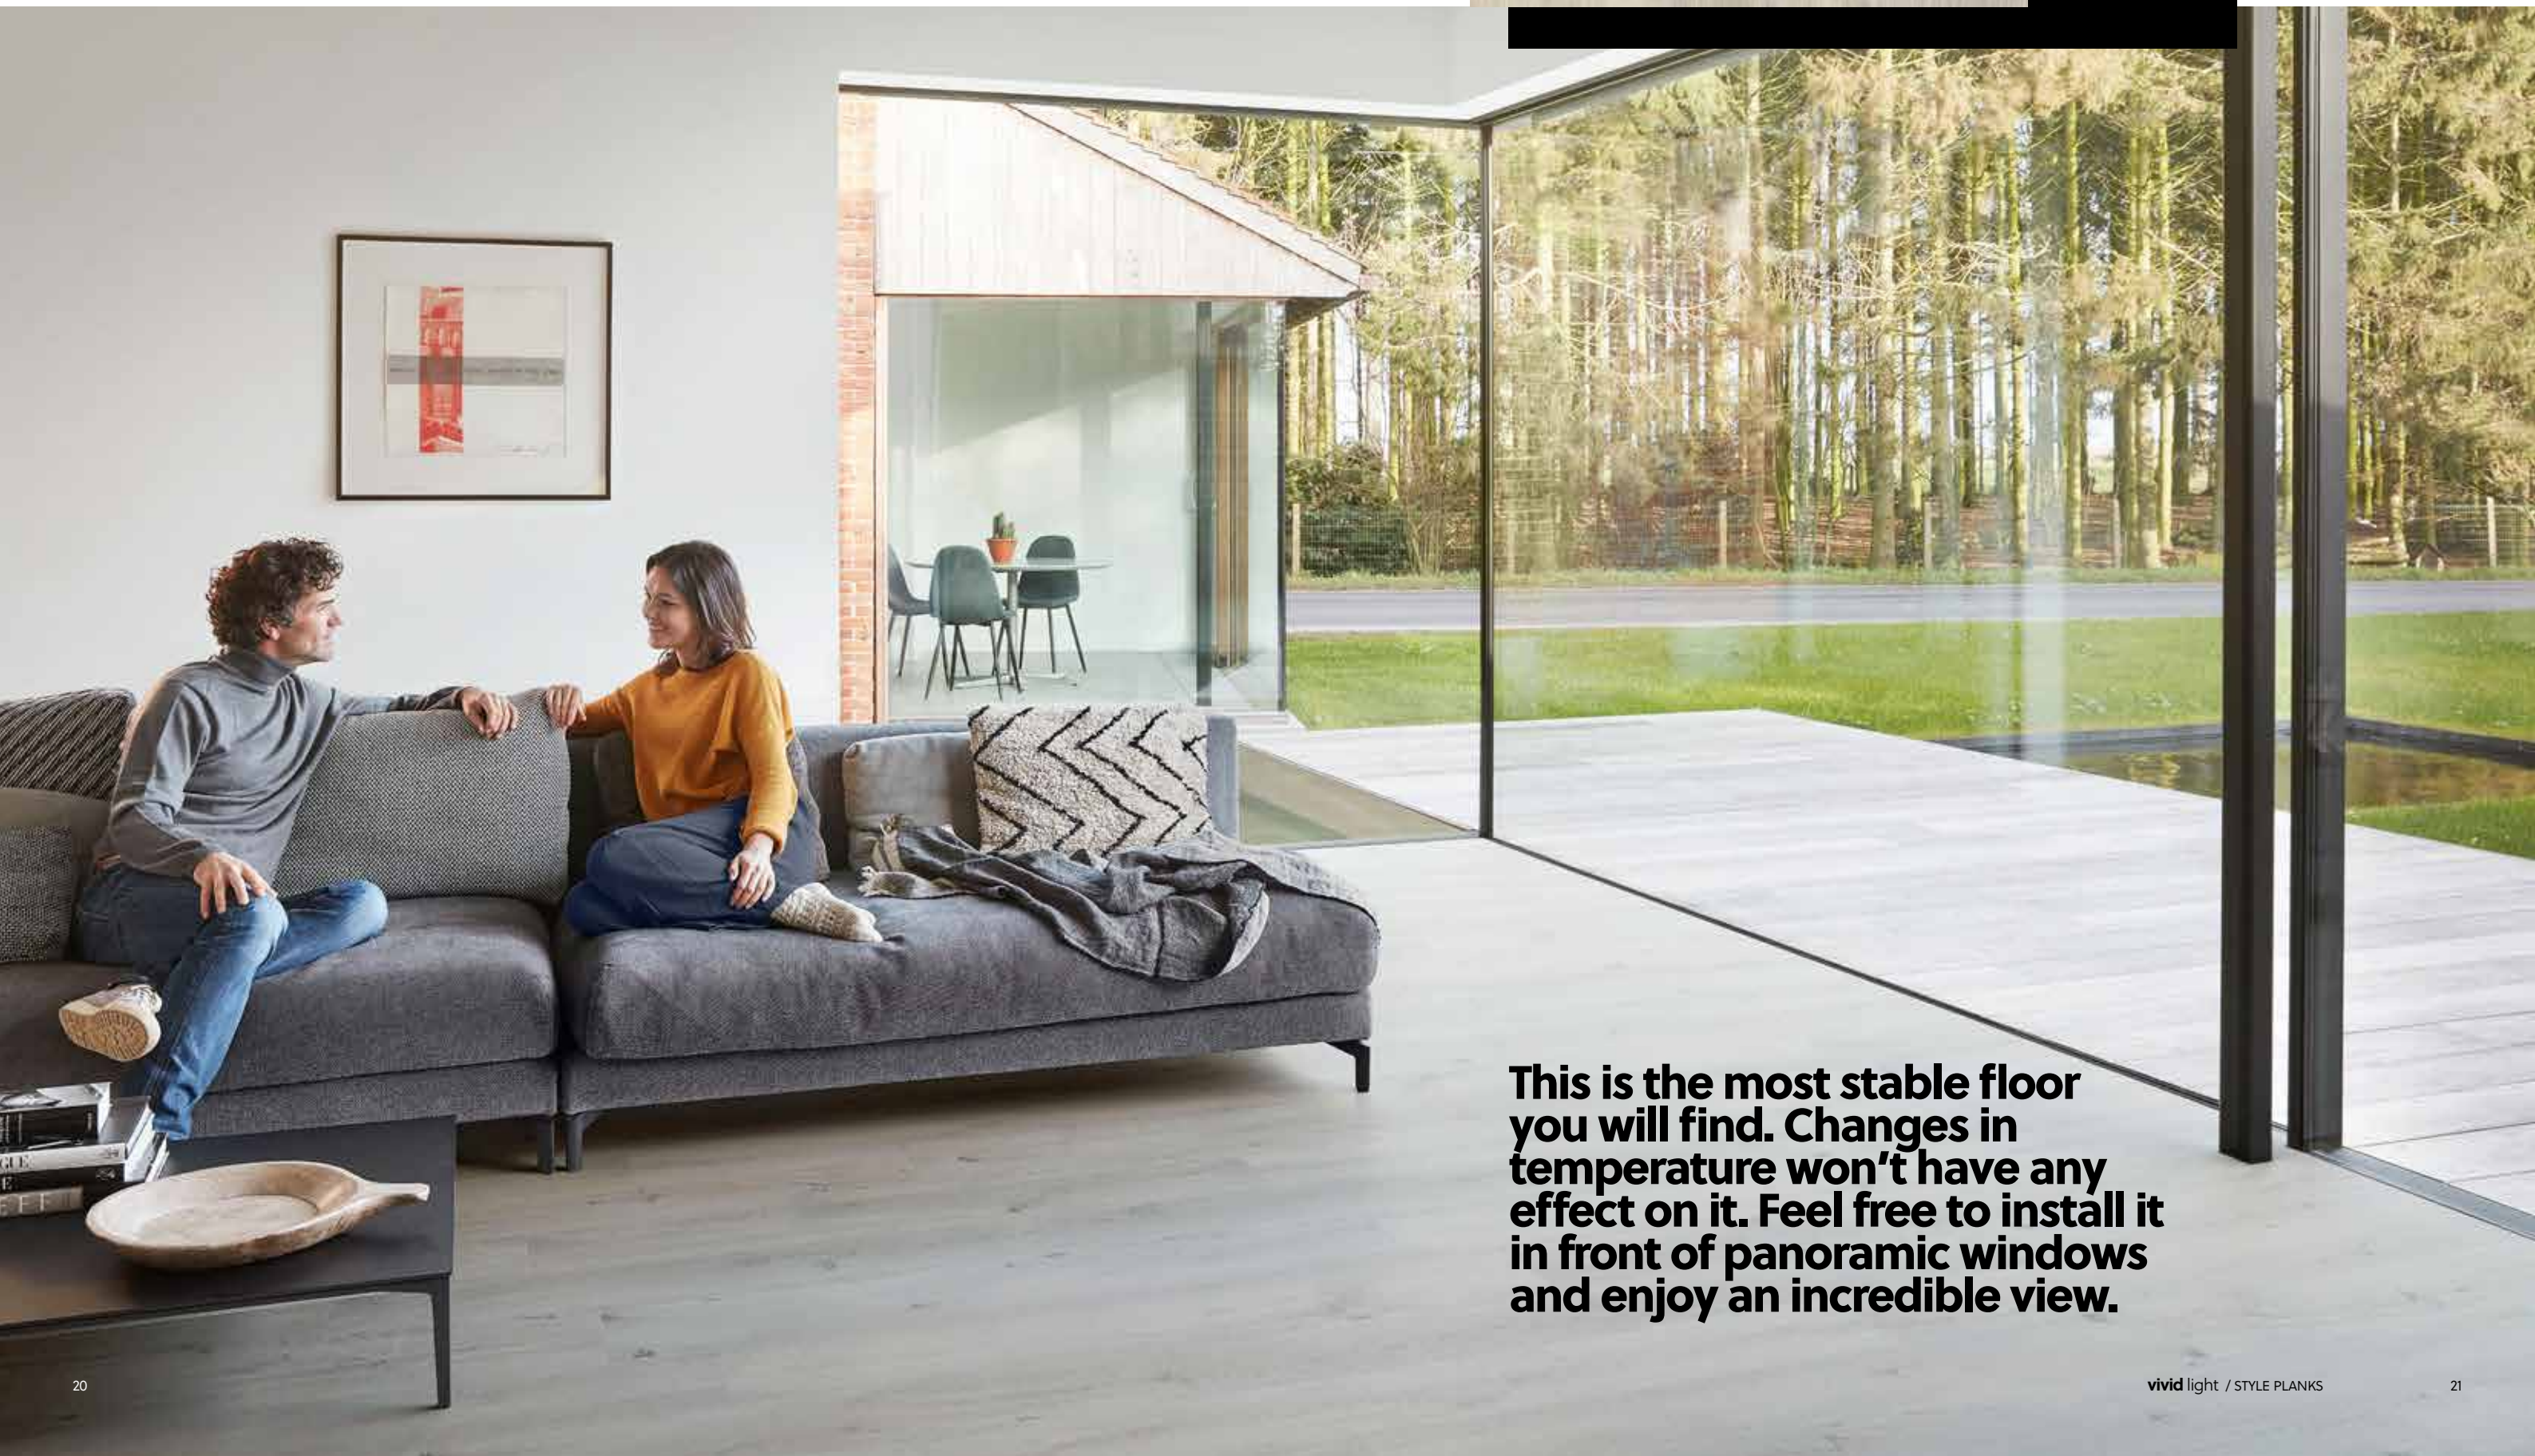

environment. Our floors save up to 30% material in comparison to other products on the market. Moreover, they can be 100% **recycled** at the end of their lives.

Quick and easy installation

Our DreamClick® locking system makes the installation of this floor easy as can be. Whether you do it yourself or ask a professional, Style will be installed in no time. You can finish up to 12 m² in just 30 min. Because this floor is extremely lightweight, you won't need any heavy equipment. You can use a simple Stanley knife to cut the planks. Imagine installing a new floor without saws and dust.

DreamClick® is not only easy to use, it is super flexible as well. The 360° interlocking system allows you to combine the planks any way you want. Do you want your floor to stand out? Click the planks in different directions and create your own herringbone pattern or get inspired by our endless other possibilities.

This is the most stable floor you will find. Changes in temperature won't have any effect on it. Feel free to install it in front of panoramic windows and enjoy an incredible view.

A strong kitchen floor for little masterchefs

elegant natural brown / STYLE PLANKS

Life is busy. That is why we want you to enjoy the good times at home to the fullest. When your day is done, Style welcomes you home and allows you to do whatever you want. Cook a great meal? Or just skip dinner and start with dessert right away? Your floor really won't mind.

You don't want your house to look like any other. Right? At BerryAlloc, we understand. Just like you, we're crazy about exceptional design. Our 16 Style planks allow you to find the perfect fit for every room. On top of that, you can easily install them the way you want to.

There is a Style for every room

rustic light / STYLE PLANKS

Be the designer of your own life.
Of your own house. Choose the
floor that fits you best.

**Your floor is
what you
make of it.**

A high-angle photograph of a dark grey herringbone-patterned floor. In the upper right corner, a portion of a brown leather chair with dark metal legs is visible. A grey and white patterned blanket with frayed edges is draped over the chair. The lighting is soft, highlighting the textures of the wood, leather, and fabric.

A herringbone pattern? Sure, why not.

Our 16 planks give you 16 different possibilities to decorate your home. Each colour refers to nature, but they all have their own character and give a different look & feel to your interior. Style combines nature with a sense of warmth. The perfect combination for a cozy and homey feeling.

The finishing touch

Underlay Dreamtec+

Our unique Dreamtec+ underlay reduces noise and flattens out little defects in your subfloor. Properly installed, it functions as a moisture barrier too. Its smooth surface allows the floating floor to move freely over the underlay, an important factor during its lifetime.

Skirtings

The Style collection provides skirtings that match your floor. Same color, same print. Do you prefer paintable skirtings that match the wall instead? That's possible as well. The perfect way to finish your room and cover up expansion gaps.

Profiles

Our modern aluminium profiles are there to finish your room nicely, cover up expansion gaps or simply to provide a smooth transition with another floor.

fast & easy
installation

Installing your Style click floor is **easy as can be**

Less work, more time to relax. Thanks to our DreamClick® system, it takes no more than 4 steps to install your floor.

1. Allow the planks to adjust to the environment for **48 hours**.
2. Clean the floor, install the appropriate **underlayment** as necessary.
3. **Install the floor** using minimal tools.
4. Finish your floor with **skirtings and profiles** for an optimal result.

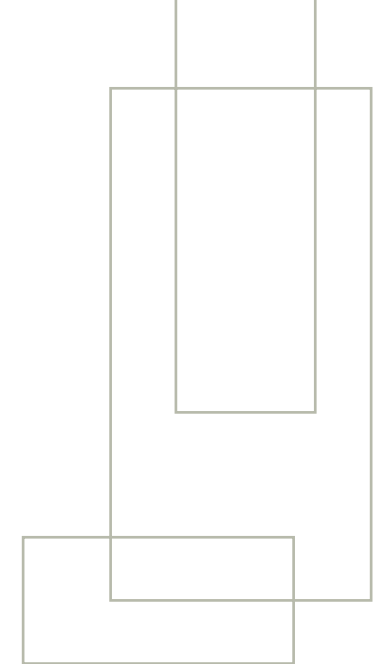

Let's make this even more easy:

- As the **perfect renovation floor**, our Style needs little preparation of the subfloor, certainly if you use our Dreamtec+ underlayment.
- Style is suitable for floor **heating and cooling**.

- Using only knives and no saws, Style has a **dust free installation**.
- As a **thermally stable** product, Style can be installed in front of large windows.

More detailed installation instructions can be found on our website or youtube channel: berryalloc.com & youtube.com/berryalloc
